Amantani

Amantani Island on Titicaca Lake is the inspiring source of each piece of this collection. The eyes dazzle and the lips mute when one sees the splendor of Titicaca lake. Emerging from her as a goddess is Amantani Isle, stopped in time mystical and imposing. Every detail that adorns it attracts the eye.

The romantic organzas are embroidered by fine threads and exquisite silk. The seductive tulle, the bright fringes and shine provided by crystals, beadings and sequins make a perfect union to pay tribute to a surviving culture that seeks every day to show the world the wealth of the Empire of the Sun.

This Collection is addressed to a woman who wants the appearance of mystic, overflowing sensuality, elegance and character.
